- + No Preservatives
- + No Artificial Ingredients
- + Non-GMO
- + Less than .3% of tetrahydrocannabinol (THC)
- + Safe, effective and able to be sold in all 50 states
- + Natural Peppermint flavor

## FUN FACTS

Humans are born with an endocannabinoid system with receptors that are designed to absorb and utilize CBD

Hemp-derived CBD has been used to reduce the psychoactive effects of tetrahydrocannabinol (THC), cannabis' psychoactive compound that is responsible for brain fog, delayed reactions and the feeling of being "high."

## WHY CBD?

CBD is a leading product in health and wellness trends. Substantial discoveries have been documented to show CBD's success as a form of therapy for many kinds of health functions. Medical doctors, pain relief clinics and Post Traumatic Stress Disorder (PTSD) treatment centers are all showing interest in using this wellness product.

## WHY PURIUM'S CBD?

Our mission to provide pure + premium products continues with CBD+ sublingual spray, providing the best Mother Nature has to offer, in the most effective and affordable way.

David Sandoval formulated CBD+ with both the full-spectrum extract as well as isolate extract. Purium believes in whole foods, whole plants and the co-factors that are in a whole food matrix. That is why it was important to offer full spectrum extract in a base of organic hemp seed oil. Science and cutting-edge research on pure isolate CBD show great promise as well. This unique product was formulated to bridge two schools of thought, allowing the user to experience the benefits of both. David is a pioneer in the natural products and whole foods industry and always depends on synergy to formulate products that maximize therapeutic effects.

Not only is our CBD pure and super-potent at 1500mg per bottle, it is offered at a competitive price. Plus, Purium offers an abundant variety of vegan, organic superfoods products to complement the average CBD customer.

**Currently not available in Canada.**

These statements have not been evaluated by the FDA and are not intended to diagnose, treat, cure or prevent any disease. Most work-place drug screens and tests target delta9-tetrahydrocannabinol (THC) and do not detect the presence of Cannabidiol (CBD) or other legal natural hemp based constituents. Even though our products contain less than .3% THC by dry weight (Federal Legal Limit), studies have shown that ingesting Full Spectrum CBD can cause confirmed positive results when screening urine and blood specimens. Accordingly, if you are subject to any form of employment drug testing or screening, we recommend (as does the United States Armed Services) that you DO NOT take our products. Before taking our products, consult with your healthcare practitioner, drug screening testing company or employer. This website requires you to also be at least 18 years or older to purchase our products.
