L.O.V.E. is Not...

FAKE food can cause REAL health problems. So, what we don't put into L.O.V.E. is just as important as what we do put in. Many of the things that other companies put into our bodies are made not made by God and Mother Nature, they're made by chemists . . . in laboratories. They aren't foods at all. They're food-like substances. Processed, irradiated and genetically-modified. Filled with artificial colors, flavors and sweeteners. Loaded with hormones and sprayed with pesticides. That doesn't work for us.

- **NO GMOs (genetically-modified organisms)**
- **NO irradiated ingredients**
- **NO gluten**
- **NO soy**
- **NO caffeine**
- **NO dairy**
- **NO artificial colors, flavors or sweeteners**
- **NO binders, fillers, excipients or preservatives**
- **NO synthetic or man-made ingredients whatsoever**
