What L.O.V.E. **does NOT** contain is just as important as what it **does contain**:

**FAKE food can cause REAL health problems.** So, what we don't put into L.O.V.E. is just as important as what we do put in. Many of the things that other companies put into our bodies are not made by God and Mother Nature; they're made by chemists in laboratories. They aren't foods at all. They're food-like substances; processed, irradiated, and genetically modified, filled with artificial colors, flavors and sweeteners, loaded with hormones and sprayed with pesticides. That doesn't work for us.

- **NO GMOs (genetically modified organisms)**
- **NO irradiated ingredients**
- **NO gluten**
- **NO soy**
- **NO caffeine**
- **NO dairy**
- **NO artificial colors, flavors or sweeteners**
- **NO binders, fillers, excipients or preservatives**
- **NO synthetic or man-made ingredients whatsoever**
