*Add an Apothe-Cherry to bring your purchase to 50+ BV points. Use Bee Energetic daily and take Apothe-Cherry before bed to improve your circadian rhythms and help your body beat adrenal burnout! Must purchase by March 20th at 11:59 PM Central Standard Time to prevent Back-Up Order from being triggered.

In today's world, it seems tough for many to find enough energy to make it through a hard day without coffee, sodas, or some other unhealthy stimulant. Whether you want to wean yourself off of your coffee habit... or want to keep going strong with your daily cup of joe, you need adrenal support. You want your steaming cup of familiarity, but you want to be free of jitters, free of sugar crashes, free of shot nerves... you want to BEE ENERGETIC.

The reliance on stimulants to overcome low energy and low motivation may be reversed with proper use of David Sandoval's proprietary "Bee Energetic" formula. The first version of this product came from one of David's mentors, the holistic healer and highly-influential Dr. Bernard Jensen (DC, ND, PhD). David built upon Dr. Jensen's original ideas to develop something truly extraordinary not only for caffeine drinkers, but for anyone experiencing high levels of stress.

Bee Energetic™ contains spirulina, nature's most nutrient-dense high protein energy food, and bee pollen, which is used by cultures around the world as an energy and nutritive tonic, as well as the well-studied American Ginseng and cordycep mushroom. (The latter are notable for being accredited for helping Olympic Chinese runners to smash world records in the 1992 games.) This proprietary blend will help you avoid adrenal fatigue and energize you without the crash that is appropriately associated with the unhealthy stimulants found in the aforementioned beverage stimulants.

- Can increase energy, strength, endurance, and vitality
- May improve mental clarity and circulation
- May help balance the adrenal system

If you suffer from adrenal burnout and you want to wake up feeling refreshed, try taking Apothe-Cherry™ (tart cherry) concentrate before going to bed and adding Bee Energetic™ to your daily regimen for only 1 month - your adrenals could be recharged for up to 6 months if you follow this regimen diligently! For more extreme cases of adrenal burnout, doubling the dose and the duration (i.e. use 2 full bottles) is recommended.
