

Weight Loss Testimonial

Lost 84 lbs in 12 months

Joining Purium is honestly the best thing I have done for myself. I needed to lose weight because of many health problems that I was having. Having P.O.T.S (Postural Orthostatic Tachycardia Syndrome) caused me to have extremely low blood pressure, migraines, fatigue, dizzy spells and even pass out. I would have to wear compression from my waist down just to keep my blood pressure from dropping while I worked. Since Purium I haven't had one problem. I've also been free of knee pain, foot pain and lower back pain. So I'm getting healthier every day. Another amazing part of Purium is that I have been able to help others regain their health and help them with their new healthy lifestyle!! How awesome!! So thank you for my amazing upline and my FANTASTIC group!! You all keep me going!!

It's mind-blowing how much can change in a year. I am beyond blessed that my very good friend Gloria Coppola introduced me to Purium a year ago. I am healthier than I have ever been! No more low blood pressure issues which for me is insanely awesome not to have. Over the year I have done six 10-day transformations, most of them were at the beginning of my journey. I still use Purium products every day and I love them!! I have also started running again which is something I thought was over for me! An added bonus is I am down 84 lbs and 45 total inches. As I looked at my beginning piece of paper, I noticed I wrote on top of it, "Be what you want to become." It looks like I am following it! Thanks to all my beloved friends and family that have helped and supported me!!

Name: Robin N.L.
State: Kansas
Results: Lost 84 lbs / 45 inches

Individual results can and will vary. This testimonial is not necessarily representative of all of those who use Purium products.
