I had been with the company for 11 years and as a board certified Holistic counselor, I had always been impressed with the quality of Purium products and have decided to incorporate it into my lifestyle as well into my practice...Purium eventually had become a great business opportunity for me and slowly turned into a wonderful full-time income. I was able to put together a fantastic team of driven, ambitious and health oriented individuals who made my Purium business into something amazing and special. I love my team because they are passionate and hard working people; we truly had become one big family. Now, there are multiple 6 figure earners in my group and it's a great feeling. It is also exciting for me to see my wife Jane getting more and more involved with Purium as the two of us

together make a great team.

Purium has changed my life by bringing all the relationships and people that have come into my life. It feels like a family community. Financially it changed my life and changed my perspective on traditional business. After 7 years of schooling and time and building up my resume and credentials to move up my corporate ladder, Purium opened my eyes that it was not necessarily the only way or the path to have true freedom.

It has been such an honor to be a part of such an amazing company that is changing lives. I have locked arms with some of the most beautiful people on the planet and we're on a mission to share what these green foods are doing for people's lives. Purium has not only given me back my health and my family back their health but it has given us financial freedom in less than 10 months.

I am thrilled and honored to be with such a conscious company, I have been a Health Enthusiast, Health Advocate, Wellness Entrepreneur and using Super foods for many years and Purium is in total alignment with my values and beliefs, so sharing with passion and purpose is easy. When there is a Mission, there is always the Commission and because of this, Purium will be our biggest success...I found the Holy Grail.
