## PARASITES BEWARE

No matter how clean your lifestyle, food parasites are a scary reality. Unwashed produce, wild caught fish and even drinking water are just a few ways these pesky organisms find ways into our bodies. However, you don't need to steer clear of sushi or salad bar options, if you have Super CleansR. This natural blend of herbs and superfoods gently stimulates effective elimination and may expel parasites as well as other toxins. Super CleansR can keep your body clean, without compromising the foods you love to eat.
