

# SWEET BALANCE

A sweet tooth can be dangerous, whether you have diabetes or not. An imbalance of blood sugar can cause an afternoon energy crash or a recent noticeable weight gain, despite the constant feeling of hunger. The sweet tasting Scoop of Greens was formulated to specifically support general nutrition. This blend of Kamut wheatgrass, Activated Barley and Rice Bran Solubles may be beneficial to maintaining healthy blood sugar levels. Not only does this leafy power food have slow burning carbs to boost energy without the crash, it also satisfies the sweet tooth with its **tasty organic apple flavor**.

- May support healthy, stable blood glucose levels
- May help improve digestion
- May help increase circulation
- Can reduce hunger and cravings between meals
