

# September PLC Special: Rice Bran Solubles

The nutrient-dense part of rice that normally gets cooked away is perfect for a heart-healthy smoothie

Soluble rice bran is the most potent, nutrient-rich part of rice. They are amazing plant complexes that contain a wide variety of nutrients not found in other foods. Ours has a light, nutty, buttery flavor that is the perfect complement to any green drink or protein shake.

Recent scientific analysis has indicated that isolated vitamin E supplements may actually increase your risk of premature death. Your body must also metabolize or break down the vitamin E before it can use it, making it not only potentially harmful but also at times, useless! Our Rice Bran Solubles product provides all of the natural vitamin E tocopherols and tocotrienols. This means that all eight of the vitamin E compounds are available in a free form allowing your body to maximize the protective effect without causing any of the side effects or risk factors associated with vitamin E supplements.

- Contains a wide variety of B vitamins
- Great source of healthy fats
- Can help promote healthy cholesterol levels and cardiovascular function
- May support healthy blood glucose levels
